Education

B.Tech in CSE (AI & ML) - VVITU, Guntur Expected: June 2028
CGPA: 7.67

Intermediate (MPC) - Sri Chaitanya College of Education, Guntur 2024
Percentage: 93.3%

SSC - Oxford Public School, Guntur 2022
Percentage: 89.8%

Technical Skills

Languages: Python, Java, JavaScript, C
Web Technologies: HTML, CSS
Database: Oracle SQL
Tools & Platforms: Git, GitHub, VS Code
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving, Machine Learning

Projects

AI Food Ordering Agent [GitHub] [Live] June 2026 - Present
Python, LLM APIs, FastAPI, Streamlit, MCP (FastMCP), Docker, Prompt Engineering

- Built the agent arc-by-arc across 7 stages, progressing from a basic LLM demo to a full-fledged deployed application.
- Developed a conversational AI agent with multi-turn dialogue management and 5+ tool-calling functions for menu/order operations.
- Integrated with Claude Desktop via MCP (Model Context Protocol) using FastMCP, enabling the agent to be used as a tool within Claude's ecosystem.
- Containerized with Docker and deployed as a live, publicly accessible web app on Render with a FastAPI backend and Streamlit frontend.

Personal Portfolio Website [GitHub] 2025
HTML, CSS, JavaScript

- Designed a fully responsive portfolio achieving 100% mobile compatibility, with smooth scroll navigation and a mobile-first layout across 5+ sections.
- Built with vanilla HTML, CSS, and JavaScript, showcasing projects, technical skills, and contact information with clean, semantic markup.

Hackathons

Intelligent Candidate Ranking System - INDIA RUNS Hackathon [GitHub] June 2026
Python, NLP, Pandas, Scikit-learn | Team Project (3 members)

- Engineered a data preprocessing and feature extraction pipeline that improved candidate ranking accuracy by 15%, processing 100K+ profiles.
- Designed modular ML components (preprocess.py, feature_builder.py, candidate_index.py) following the software development lifecycle, with version control via Git.

Adobe University Hackathon - Adobe August 2026
Team - 3 members

- We cleared Round 1 (Coding Round), competing among university-level applicants nationwide.

GovGrievance AI - Smart India Hackathon (SIH) 2026, Internal, VVITU [Live] August 2026
React, Vite, Node.js, Express, MongoDB Atlas, Python (spaCy, scikit-learn) | Team Project (6 members)

- We built a Government Grievance Intelligence and Automated Resolution Routing System, deployed live via Heroku and Netlify.The system used NLP (spaCy) and scikit-learn on the Python backend to classify grievances and automatically route them to the right department.

Achievements & Certifications

- 5-star Python Badge on HackerRank
- Python Programming - MentiBy [View]
- C Programming - MentiBy [View]
- Problem Solving in Python, Beginner DSA - CodeChef [View]
- 500 Difficulty Rating - CodeChef [View]
